EDUCATION

GALGOTIAS UNIVERSITY

Bachelor of Technology in Computer Science & Engineering (Artificial Intelligence and Machine Learning) | 8.88

Greater Noida, India

2025

ST. PETER'S SCHOOL

Intermediate | 84.20%

Raebareli, India

2021

Technical Skills:

Java | Python | HTML | CSS | JavaScript | React Js | Bootstrap | Tailwind CSS | SQL | Data Structures |
Operating System | Object Oriented Programming | Computer Networks | Git | Machine Learning

Interpersonal Skills:

Problem Solving | Communication | Cooperative | Teamwork | Hardship | Strategic Planning

WORK EXPERIENCE

1. Web Development Intern, Code4uTech Consultancy Pvt. Ltd.

July 2024–September 2024

- Contributed to more than five development projects, improving performance by 25% and code quality by 30%.
- Developed user friendly interfaces, responsive layouts, and implemented different web technologies improving productivity by 30%.
- Built full web-tech integration, speed optimization, 100% compatibility across all browsers and devices, and a 40% increase in user engagement through interactive elements.
- Learnt collaborating with team members and clients remotely, and adhering team productivity by 20%.

2. Web Development, CodSoft

May 2024–June 2024

- Developed an interactive quiz platform featuring multiple-choice questions, real-time scoring, and instant feedback.
- Boosted user engagement by 45% and enhanced knowledge retention by 30% through intuitive design and by providing users with instant corrections and detailed performance insights.
- Developed a user-friendly e-commerce website enabling seamless product browsing, shopping cart management, and secure checkout processes.
- Increased customer conversion rates by 20% and improved overall site performance by 30% enhancing load times, shopping experience and intuitive design.

PROJECTS

1. LearnEd

- Pioneered the development of an E-Learning platform with an intuitive interface, facilitating seamless course navigation, selection, and preparation of competitive exam resources through HTML, CSS and JavaScript resulting in user satisfaction and a rise in course enrollment with 50% activity hike.
- Provided comprehensive resources and tools for competitive exam preparation, contributing to improved user performance and success rates with 30% of the competitive course content.
- View Deployment : <https://learned-anshika.vercel.app/>

2. NestFinder

- Pioneered the development of a robust Apartments Locator website with HTML, CSS, JavaScript. and ReactJs, driving with an intuitive interface, facilitating seamless navigation driving a 40% boost in website traffic and a 25% lift in user engagement.
- Streamlined the search algorithm to deliver results quicker than competitor apps, increasing user retention.
- View Deployment : <https://nestfinder-anshika.vercel.app/>

3. Automated Teller Machine

- Engineered a Java-based ATM system supporting key banking functions like balance inquiry, cash withdrawal, deposits, and account transfers, achieving a 99.9% accuracy rate in transaction handling.
- Applied object-oriented programming principles to design a modular architecture, ensuring maintainability and scalability while reducing code redundancy by 30%.
- Optimized transaction efficiency by implementing data structures such as arrays and linked lists, resulting in a 20% improvement in processing speed.

CERTIFICATIONS

- Cybersecurity Certification Course - CISCO
- Web Development Certification Course - IBM
- Machine Learning Foundation Course - AWS Academy
- Cloud Computing and Architecting - AWS Academy
